bestMed

Better living. Better life.

Pace

Why Choose Bestmed?

After achieving the benchmark of celebrating our 50th anniversary in 2014, Bestmed is still raising the bar in the medical aid industry to the point where we have grown our membership to reach the fifth overall position countrywide. Going forward Bestmed is also focused on serving our members with the legendary Bestmed touch.

As a self-administered scheme, Bestmed now has more than 92 000 principal members and provides healthcare benefits to more than 193 000 lives. With our extensive experience and exceptional expertise, we can negotiate with our service providers to offer our members benefits and services that are, Rand-for-Rand, the best value compared to other large open medical schemes.

The Right Fit

Bestmed recognises that members' healthcare needs will vary depending on age, marital status and different responsibilities and priorities. To address our members' desire for choice and flexibility, we've designed ten healthcare options which are structured differently to suit various healthcare needs. So, whether you essentially want to cover hospital costs or require a more comprehensive offering, covering all healthcare requirements, we have an option for you.

Our Beat, Pace and Pulse product offerings have been designed based on engagements and conversations with members over our many years of experience. After listening intently to their concerns, our healthcare experts have translated these insights into benefit options that are easy to understand and cater for all needs.

Focused on Wellness

Your continued health and wellbeing is our primary concern. That is why we encourage all of our members to live a more preventive, meaningful and productive life through our wellness programme known as Health Check. We are here to assist you to become a better version of yourself through choosing a healthier lifestyle.

Our wellness philosophy is based on five basic pillars. We encourage our members to:

Be Active: Incorporate exercise as part of your daily routine to promote positive changes.

Be Safe: Make responsible lifestyle choices to prevent adverse consequences.

Be Nutri-Wise: Balanced nutrition is important to maintain a healthy body and mind.

Be Happy: Create and maintain a balance between work, life and home.

Be Fin-Wise: Making informed financial decisions in life will ensure financial independence.

The Corporate Partnership

For Bestmed, healthcare is based on sound partnerships. So, the way we engage with our corporate clients aims to establish and maintain long-term personal relationships, built on mutual trust and integrity, provide affordable, excellent healthcare solutions, be accessible and provide personalised advice to all members and be flexible so processes are easy to follow.

In line with this vision, Bestmed has adopted a three-pronged approach in order to deliver on its promise, which includes Corporate Wellness, a Client Service Programme, as well as Administration. Bestmed advisors are responsible for implementing these service programmes at employer organisations. Today, Bestmed services over 140 employer organisations, including large corporate businesses, South Africa's biggest universities and a variety of parastatals.

Method of Scheme Benefit Payment

| Pace1 | Pace2 | Pace3 | Pace4 |
|--|--|--|--|
| In-hospital services are paid from Scheme risk. Some out-of-hospital services are paid from your annual savings first and once depleted will be paid from Scheme risk. Preventative care available from Scheme risk. | In-hospital services are paid from Scheme risk. | Rehabilitation services after trauma | Savings. | 100% Scheme tariff. | | |
| Oncology | | Oncology Programme. 100% Scheme tariff. | | |

Don't skip breakfast. Studies show that eating a proper breakfast is one of the most positive things you can do if you are trying to lose weight. Breakfast skippers tend to gain weight. A balanced breakfast includes fresh fruit or fruit juice, a high-fibre breakfast cereal, low-fat milk or yoghurt, wholewheat toast, and a boiled egg.

Smile Smile Smile:
There are approximately 642 skeletal muscles. It takes something like 43 muscles to frown but only 17 muscles to smile. You choose!

Cool off without a beer. Don't eat carbohydrates for at least an hour after exercise. This will force your body to break down body fat, rather than using the food you ingest. Stick to fruit and fluids during that hour, but avoid beer.

Brush up on hygiene. Many people don't know how to brush their teeth properly. Improper brushing can cause as much damage to the teeth and gums as not brushing at all. Lots of people don't brush for long enough, don't floss and don't see a dentist regularly. Hold your toothbrush in the same way that would hold a pencil, and brush for at least two minutes. This includes brushing the teeth, the junction of the teeth and gums, the tongue and the roof of the mouth. And you don't need a fancy, angled toothbrush - just a sturdy, soft-bristled one that you replace each month.

Preventative Care Benefits

Note: Benefits mentioned below may be subject to pre-authorization, clinical protocols, formularies, funding guidelines and the Mediscor Reference Price (MRP).

Disclaimer on exclusions: General and option specific exclusions apply. Please refer to www.bestmed.co.za for more detail.

Chronic Conditions List (CDL)

The Chronic Disease List (CDL) provides cover for the 27 listed chronic conditions for which medical schemes must cover the diagnosis, medical management and medicines as published by the Council for Medical Schemes. Non-CDL chronic conditions are those additional conditions that Bestmed provides chronic medicine cover for. Authorisation for CDL and non-CDL chronic medicines is subject to clinical

funding guidelines and protocols, formularies and Designated Service Providers (DSPs) where applicable. Below is the list of CDL and non-CDL conditions that Bestmed covers on the various benefit options.

Note: Benefits mentioned below may be subject to pre-authorisation, clinical protocols, formularies, funding guidelines and the Mediscor Reference Price (MRP).

| | Pace1 | Pace2 | Pace3 | Pace4 |
|-----------------------------------|-------|-------|--|-------|

| CDL 26 | | | Systemic Lupus Erythematosus (SLE) | |
| CDL 27 | | | Ulcerative Colitis | |

No folly in folic acid. Folic acid should be taken regularly by all pregnant mums and people with a low immunity to disease. Folic acid prevents spina bifida in unborn babies and can play a role in cancer prevention. It is found in green leafy vegetables, liver, fruit and bran.

Curry favour. Hot, spicy foods containing chillies or cayenne pepper trigger endorphins, the feel-good hormones. Endorphins have a powerful, almost narcotic, effect and make you feel good after exercising. But go easy on the lamb, pork and mutton and the high-fat, creamy dishes served in many Indian restaurants.

Chronic Conditions List (non-CDL)

BestBaby Programme

With so many things to juggle, the BestBaby programme is created to help moms and dads through the entire pregnancy without missing a beat. At Bestmed we want you to enjoy this entire experience.

Registering on this programme will give you the following support and benefits:

- A 24-hour professional medical advice line.
- Weekly e-mails packed with convenient information about your pregnancy, your baby's development, how to deal with unpleasant pregnancy symptoms and useful tips.
- Dads won't be left out as they will also receive e-mails every second week to inform them about the baby's development and Mom's progress.

- To make sure your pregnancy starts right you will receive a welcome pack containing an informative pregnancy book to guide you through the stages and discount vouchers for various baby items. Mom and Dad can also expect a pregnancy health pack, via Fastmail, within the first month of registration.
- In your second month after registration, we will send you a beautiful baby bag, to your door, packed with products to use after baby's birth. Moms-to-be can expect their bag to contain wonderful products.

* Please note that you may only register in the programme after 12 weeks of pregnancy.

Midwife-assisted births are covered at 100% of Scheme tariff on all Pace options.

You can save money by obtaining pre-authorisation for planned, in-hospital medical procedures in advance.

2015 Healthcare Offering

We are a Scheme managed by members for members and will never compromise on quality service to you. We always strive to exceed your expectations.

Bestmed provides great healthcare benefits to more than 193 000 beneficiaries through our ten unique and flexible benefit options. With us you get the best when it comes to accessing quality healthcare.

The **Beat range**, offers flexible hospital benefits on all Beat options with limited savings to pay for out-of-hospital expenses on some options such as Beat2 and Beat3 but extensive out-of-hospital cover on Beat4.

The **Pace range**, which is covered in this comparative guide, offers more comprehensive hospital benefits, Scheme benefits and additional savings benefits to cover extensive out-of-hospital expenses. The options in this category are Pace1, Pace2, Pace3 and Pace4.

The **Pulse range** offers full hospital benefits and out-of-hospital benefits which are both provided by designated network providers only. The options in this category are Pulse1 and Pulse2.

For complete information about all these options, please refer to the individual product leaflets or go to www.bestmed.co.za.

Cut out herbs before ops. Some herbal supplements - from the popular St John's Wort and ginkgo biloba to garlic, ginger, ginseng and feverfew - can cause increased bleeding during surgery, warn surgeons. It may be wise to stop taking all medication, including herbal supplements, at least two weeks before surgery, and inform your surgeon about your herbal use.

Pure water. Don't have soft drinks or energy drinks while you're exercising. Stay properly hydrated by drinking enough water during your workout (just don't overdo things, as drinking too much water can also be dangerous). While you might need energy drinks for long-distance running, in shorter exercise sessions in the gym, your body will burn the glucose from the soft drink first, before starting to burn body fat. Same goes for eating sweets.
