

The Chronic Disease List (CDL) provides cover for the 27 listed chronic conditions for which medical schemes must cover the diagnosis, medical management and medicines as published by the Council for Medical Schemes. Non-CDL chronic conditions are those additional conditions that Bestmed provides

chronic medicine cover for. Authorisation for CDL and non-CDL chronic medicines is subject to clinical funding guidelines and protocols, formularies and Designated Service Providers (DSP's); where applicable. Below is the list of CDL and non-CDL conditions that Bestmed covers on the various benefit options.
